Zen class Full Stack Developer Program @**GuviGeeks**

P R O F I L E

A Recent graduate skilled in MERN stack development, with handson experience in building responsive frontends using React.js and dynamic backends with Node.js and Express.js. Eager to contribute to innovative projects, leveraging solid understanding of HTML, CSS, JavaScript, and MongoDB to create impactful web applications.

F U N C T I O N A L   S K I L L S

- Problem Solving
- Communication skill
- Time Management
- Discipline & Self-Motivation
- Adaptability
- Goal-Oriented Thinking

P R O J E C T S

1. **Gmail Clone**

(ReactJS, NodeJs, ExpressJS, MongoDB)

- **Gmail Clone Development:** Built a Gmail clone website with key features like inbox, sent items, and drafts. Created a responsive and user-friendly interface that works well on all devices.
- **Advanced Messaging Functionality:** Used the MERN stack (MongoDB, Express.js, React.js, Node.js) to send and receive messages in real-time. Managed data flow smoothly for a fast and efficient messaging experience.
- **User-Centric Design**: Focused on clean and simple design to improve user experience. Made sure the app is easy to use and accessible for all users.
  Deployment URL : https://gmail-clone-1711.netlify.app/

2. **Chat Application**

(ReactJS, NodeJs, ExpressJS, MongoDB, Socket.io)

- **Built a real-time chat application** using the MERN stack and Socket.io, enabling smooth one-to-one messaging between users**.**
- **Implemented real-time communication** where messages are instantly delivered and displayed without refreshing the page.
- **Focused on clean UI and user experience**, making it easy to start conversations, view chat history, and interact seamlessly on any device.
  Deployment URL : https://chatapplication17.netlify.app/
